

WALLEM GmbH & Co KG

We are Wallem GmbH & Co. KG, a Quality Ship Management Company, which has grown rapidly during the course of five years and are presently managing a mixed Fleet of 27 Vessels comprising of Bulkers, Containers & Oil Tankers.

We are inviting a suitable professional to be a part of our growing Ship Management Team in the position of a

Safety Superintendent

Qualifications:

- Master Mariner, naval architect or equivalent with sailing experience on tankers/chemical tankers.
- Good knowledge of tankers and knowledge of bulk carriers would be an advantage
- Experience of having handled vessels with a Ship Management Company or a Ship Owning Company will be preferred.
- Candidates with Classification Society work experience will also be considered.
- Qualification as internal auditor (external auditor qualification would be preferred)
- Good knowledge of relevant Class rules, international regulation, and vettings
- Good IT Skills.
- Fluency in English (Oral and Written).

Responsibilities:

- Supervision of all vessels' ISM/ISPS compliance,
- Monitoring all vessels' audit status, control the auditing preparation and responses
- Monitoring safe navigation practices, passage planning, load and discharge planning for all vessels
- Assistance in preparing for vetting inspections and consequently liaise with oil major companies and charterers to ensure that the tankers maintain their approved vetting status
- Maintain and update the company's "Tanker Management Self Assessment" Scheme
- Maintain communication between the vessels and management onshore.
- Visiting the vessels for audits at regular intervals.

The position reports to Managing Director. Extensive traveling must be expected.

We are looking forward to receive your applications.
